Objective

Computer Science and Engineering graduate with a passionate and self-motivated **Web Developer** with hands-on experience in **HTML**, **CSS**, **JavaScript** and **SQL**. Skilled in creating responsive, user-friendly Interfaces and optimizing performance. Seeking an entry-level role to contribute my technical skills to real-world projects in a collaborative team environment and grow as a **Full Stack Developer**.

Technical Skills

- **Web Development:** HTML, CSS, JavaScript, Responsive Design
- **Programming Languages:** Java, C
- **Database:** SQL
- **Development Tools:** Git, Visual Studio Code
- **Other Skills:** Debugging, Cross-device Compatibility

Projects

1. **Clone Website**
   - Recreated the homepage of AJIO, navigation bar, design and visual structure
   - Used HTML to build a clean and accessible page structure
   - Styled navigation bar, banners and product cards to match the original site
   - Applied CSS Flexbox for responsive layout
   - Ensured cross-device compatibility using media queries

2. **Personal Portfolio Website**
   - Designed and developed a responsive personal portfolio to showcase projects, skills and contact information
   - Structured content using HTML for clarity and accessibility
   - Styled layout and components with CSS Flexbox for clean and organized presentation
   - Implemented responsive design using media queries to ensure compatibility across devices

3. **Simple Login Web Page**
   - Created a clean and responsive login page with input fields for username, email and password
   - Structured the form using HTML elements and CSS for accessibility and clarity
